Wild Fisheries Review

The only item on the agenda was to consider the Board's submission to the Scottish Government in response to the Wild Fisheries Review.

Following a wide ranging discussion of issues the Board agreed on a working group to which it delegated responsibility for drafting the response. The Working Group would comprise the board Chairman, John Mackay, Anson MacAuslan and Alan Youngson. The draft was to be circulated for the approval of all Board members in good time for the 7 August deadline for submission to Government.

Action: WFR Working Group
